This was a special project. Our good friend, Bobby Cox, pointed out that the historic Hilltop Cemetery had several headstones in need of straightening, or needed completely reset. This was a true education for most of us. The history of our county is rich in this final resting place. Hilltop Cemetery is located on “Cemetery Hill”, just above the Central Baptist Church section of Hinton. As you turn up the hill, the first cemetery on the left is the Catholic Cemetery. At the top of the hill is Hillcrest Cemetery. Hidden in between the two, not visible from the highway, is Hilltop Cemetery. The Making A Difference group, with the help of many volunteers, reverently made the necessary repairs to this historic graveyard. Many thanks are extended to those who stepped up to help us complete this task.
