# Project #20

## Paint SCHS Parking Lot Stripes

During the June 2016 floods, Summers County High School grounds were completely under water. As the water receded, dirt and debris were left behind. After removal of the debris, the parking lot stripes were heavily worn and soiled, to the extent they were barely visible.

Classes of Hinton High School Making A Difference approached the Board of Education and volunteered to clean and restripe the SCHS parking lot, consisting of 225 regular and 8 handicapped parking spaces and the BOE parking lot consisting of 15 regular and 1 handicapped parking space.

Once again, MAD's volunteers stepped up to the task. They cleaned the parking lots and used Board of Education Striping machines, to restripe the both parking lots. Accomplishing the tasks in two days.

# The Volunteers

The following volunteers came and eagerly pitched in. They cleared flood debris and cleaned the parking lots. With striping machines provided by the BOE, they painted new stripes on a total of 240 regular and 9 handicapped parking spaces. End to end, the job was completed in two days. Many thanks for a job Well Done!
